**Andrew Wheeler** is a founding partner of Wheeler, Montgomery & Boyd, and focuses his practice on DUI defense. He has lectured on topics including the role of criminal defense attorneys and effective DUI defense, and has handled hundreds of DUI cases in Clark County.

A lifetime resident of Clark County, Andrew is a graduate of the University of Idaho College of Law. His interest in DUI defense began in law school as an intern for the Clark County Prosecuting Attorney's Office. Later, as an associate for Anderson & Associates, he narrowed his criminal law practice to focus almost exclusively on DUI defense. He actively participates with the Clark County Bar Association and has served as a member of its executive board.

**Eli Hart** was born and raised in Portland, OR. He now lives there with his family and looks forward to his infant son experiencing the same tight-knit community he enjoyed there. Eli has owned and operated a trial support and litigation consulting firm since 2006. In that time he has personally assisted with more than 150 jury trials in Oregon and Washington.

In addition, Eli and the rest of the River City consultants and technicians have more than a decade of experience offering full service litigation support and consulting. Their understanding of the litigation process from discovery to trial and everything in between allows them to offer an unmatched insight into individual cases. They offer services including presentations and demonstrative exhibits of all types for use at depositions, mediation, and trial. This includes using the latest in technology including complex Power Point presentations, computer animations and re-enactments, and interactive case timelines.
